From the company that created *American Sexy*, *Killer Smile*, and *How to Cheat* comes a new crime drama about two people wrestling with their damaged past. Each struggles to find strength in this tight and emotional new play.

Detectives Ross and Everly are linked by a traumatic event 20 years in their past. When a crime that echoes this event brings them back together, a dangerous game begins. This play explores trauma and recovery, guilt and redemption, and how fragile and strong we can be.
